FEB 1983

To whom it may concern

On a whaling voyage occupying frequently four to five years, it is essential, to make it useful to the Owners and valuable to the officers and crew, that the Log Book should contain a full and accurate record of all the events occurring on ship board,

On writing up the daily events, in addition to the usual method of simply recording the weather, course and Lat & Long, you will please note all cases of Death, Sickness, Accidents, (if serious) mutinous conduct, disobedience, or discharges of officers or crew, and the shipment of others, and also any Cargo or Material taken on board or landed from ship,

In cases of desertions, it should be stated from day to day, until his absence from the ship has exceeded forty eight hours,

The name of the deserter or deserters should be given, and the fact stated that he has been absent without leave, more than forty eight hours,

In following these directions, you will find it advantageous to you and future voyages, and will very much oblige

Yours truly

Swift & Allen
Agents Bark Martha.

Oct 5th 1832

At 9 A M got under weigh with a light Southerly wind and commenced to work out of the Bay with all hands on board

Oct 6th

Still a light Southerly wind. working out. at 4 P M we discharged the Pilot. heading W S W with all Sail set. those Watches &c at dark Cuttyhunk bearing E by N dist 7 miles. at 11 P M. saw Block Island light bearing W by N dist 5 miles tacked to the E. at 3 A M tacked back again. at daylight saw Long Island bearing N N W dist 10 miles. at 10 h tacked to the E S E
